

# June 27th from 4:30 PM to 7:30 PM

## Guided tour, Capo Milazzo Marine Protected Area.

This immersive experience, led by an expert guide, offers a unique opportunity to explore this exceptional coastal ecosystem.

The tour includes approximately one hour of scenic walking with several strategic stops along the way, including 147 steps. The path is unpaved, so we recommend wearing **comfortable clothing** and **sturdy footwear** to ensure an enjoyable experience. Additionally, we suggest bringing a **hat** for sun protection and a **water bottle**.

At the end of the walk, you will have the chance to immerse yourself in the crystal-clear waters of the marine reserve—an opportunity to fully appreciate its natural beauty, provided that no oils or sunscreens are applied to your skin.
